MOTION - LOST

That in light of the Council's previous General Manager, Peter Bascomb, raising the risk of asbestos contamination of properties due to the water reservoir's failure in a letter to residents on 23 January 2020 (see letter in the list of documents in the public domain):

- A. That the CEO organise inspection, assessment, and reporting by an appropriately qualified (expert) external body and a briefing by the inspection group to the governing body.
- B. These to be carried out within 45 days, regarding possible contamination of private and public properties in the zone affected by the flood of water from the reservoir by asbestos due to the reservoir failure.
- C. The inspection, assessment and report should address all contamination, including asbestos materials, that:
 - (i) might have originated from site formation at the reservoir's location, or
 - (ii) illegal dumping of waste materials in the public bushland areas where water flowed and carried debris, following the reservoir's collapse; or
 - (iii) asbestos that was carried by water flows that may have been present in and under structures impacted by water flows, etc.

Where necessary, the council should seek prior permission to access properties to undertake this work.

- D. For properties found by the expert group not to be contaminated, that a clearance certificate or other appropriate document be issued to the owners of the properties, certifying the absence of any asbestos contamination. Council records should be updated accordingly.

6.6 UNDERTAKE INVESTIGATION INTO THE RESERVOIR COLLAPSE

Record No: I25/34

Councillor Reuben Rose has given notice that at the Ordinary Meeting of Council on 24 January 2025, he will move the following motion.

MOTION – LOST

That Council:

- A. Commission an independent expert investigation to assess the circumstances that led to the reservoir's failure, determine responsibility for the reservoir's failure, and steps taken to deal with the failure. This investigation must consider, and not be limited to, the following documents that are in the public domain, having been released under GIPA or parliamentary processes:
- (a) Mr Bascomb's letter to residents of 23 January 2020;
 - (b) The final ALS Industries Report No: 67890 REP 01 R1 *Inspection of Snowy Monaro Water Tank* dated 24 January 2019. This report identified (pp 100-104) 14 of 19 structural defects that according to the risk matrix were rated at the highest risk level: "**Extremely Critical.**" The report stated these 14 repairs were critical prior to the recommissioning of the tank.
 - (c) The Report Prepared by Public Works Advisory (*Report No. 1 PWA/1PM/000876/ 3 May 2018* and prepared by Mikhail Kogan and Ram Singh). In that report was the advice that: "*The vertical wall is reinforced lightly (refer original design in appendix B) and could crack in service due to loss of prestress and thermal actions.*"
 - (d) SafeWork NSW - *Briefing for the Investigation Decision Making Panel. Dangerous Incident at Snowy Monaro Regional Council on 4 January 2020* (WSMS: 1-435161 & 2-153021) Responding Inspector Janene van der Westhuysen (Unclassified). This report contains a comprehensive timeline and recommendation in this report was for a "*full investigation*". Amongst other things this report states that: "*The risk was foreseeable – Engineering/technical reports indicated that continued use of the water tank would lead to catastrophic failure...*"
 - (e) *Water and Waste Water Services SMRC OPERATIONS REPORT: Snowy No. 1 Reservoir Timeline Report*. Prepared by Mark Rixon (Manager Water & Waste Water Operations) and David Rawlings (Acting Director Corporate & Community Services) 15th January 2020.
 - (f) Powerpoint presentation – *Snowy Reservoir No. 1 - Timeline* by David Rawlings.
- B. Provide the Independent Expert Investigator(s) at 6(a) above, access to any and all of the council's internal and external records relating to the reservoir's history of construction, failure, engineering assessments, history of tenders, structural analysis, repairs and operational reports over the lifetime of the tank such as they may exist.
